For mobile advertising it is also a brand new way to better fight off mobile ad fraud. Back in the day Revmob was hailed as the holy grail of mobile ad networks – the hidden gem. Since Google made changes to their developer policies which banned apps from using notification ads, LeadBolt announced a variety of new and innovative formats that are bundled with their new Android SDK to continue to drive revenue and high eCPMs. Ithasnearlyphyemployeeswithofficesin12citiesacrosstheworld. Find an App Developer. The platform allows mobile app advertisers to run ad campaigns on their choice on Facebook itself, its Messenger app, Instagram, Audience Network to show ads across the web and its app for businesses Workplace. This model works better for advertisers, because it allows them to pay only for instances when an interest to their product or service is explicit their ads were clicked and, as mentioned above, in some cases may work for publishers as .
