Return to Book Page. Written by a clinical psychologist whose own life has been touched by suicide, this book offers the clearest account ever given of why some people choose to die. While I do agree that this is the case in most suicides, I just don't think this answer is sufficient in a general sense. Though clearly Joiner has done his research and has developed compelling sup How could we have known? For example, someone who makes non-lethal cuts on their arms will eventually get used to grander acts of self-harm. Mental Health Share This. I should say something nice about the book. He makes a profound comment that it is not necessary to understand suicide in order to be compassionate about it.
